

NOTICE OF CONSULTATION

AVIATION WEATHER OBSERVATIONS PICKLE LAKE, ONTARIO

NAV CANADA, the country's provider of civil air navigation services is conducting an aeronautical study to review the method for conducting aviation weather observations at the Pickle Lake airport (CYPL). Currently at CYPL, 16-hour aviation weather observations (METAR/SPECI), supporting a 12-hour per day aerodrome forecast (TAF), are conducted by a Contract Weather Office (CWO).

Additional information is available in the Terms of Reference (TOR) document located on the NAV CANADA web site via the following link:

[Pickle Lake TOR](#)

NAV CANADA will consult with customers and stakeholders on this aeronautical study during the Spring/Summer 2018. For questions regarding this study, please contact:
